

# Counting by Grouping

## with *LEGO* MAN in space

**Fun Fact:**  
The little bumps on  
Lego® blocks are  
called Studs.

Can you figure out how many studs there are by counting in groups? The first question is finished for you as an example.

3 groups of 2 = 6 studs

\_\_\_ groups of \_\_\_ = \_\_\_ studs

\_\_\_ groups of \_\_\_ = \_\_\_ studs

\_\_\_ groups of \_\_\_ = \_\_\_ studs

\_\_\_ groups of \_\_\_ = \_\_\_ studs

\_\_\_ groups of \_\_\_ = \_\_\_ studs
